

**Mergers & Acquisition / Capital raising and restructuring
6 months full-time internship, Paris****GIMAR & Co**

Investment banking for financial and digital economies and strategic businesses.

Created in 1999, our team advises both established institutions and young companies looking to take the next step in their story. Devising the right transaction strategy for your enduring success is the heart of our activity.

We privilege a synergistic approach to our expertise, which we employ across our dedicated business sectors, throughout the expanse of the innovation-first digital economy. Our team has supported clients in every stage of their investment banking transactions, from design to execution, providing sell-side and buy-side advisory in private or public mergers, sales, acquisitions, carve out and joint-ventures.

Gimar & Co has extensive experience in financial services, fintech, real estate, technology, telecom, media, homeland security, aerospace and defense, energy, transport and infrastructure. Our team has executed advisory assignments in France or abroad and is often involved in cross-border transactions.

Mission – Company profiles, market studies, financial analysis and financial valuation

We are looking for a long-term intern (6 months minimum) available from July. You will be integrated to our team, in which you will participate in consulting missions in acquisitions, divestitures, capital rising and company valuations for our clients.

Intern profile

Currently finishing a Master's in finance in a management school or engineering school with a specialization in finance, you are particularly interested in our key sectors (financial services and fintech) and already have an experience in corporate finance or capital rising. You will be introduced to our working methods and tools. Rigorous, you have a strong sense of responsibility and teamwork. You aspire to join a young and motivated team. Fluent written and spoken French and English is a pre-requisite, as well as professional use of main IT tools.
